

# Measure your academic competencies and **showcase your skills to future employers!**

## Critical Thinking

Earning a badge based on demonstrated proficiency in a skills-based assessment showcases your practical expertise to potential employers, making you a more competitive candidate in the job market. This credential validates your abilities and signals to employers that you are well-prepared to contribute effectively in your chosen career.

What skills does this test measure:

- Understand causation and explanation
- Analytical Skills
  - Evaluate evidence and its use
  - Analyze and evaluate arguments
- Synthetic Skills
  - Understand implications and consequences
  - Develop sound and valid arguments

Earn your Critical Thinking badge today by achieving a Proficient or Advanced score. Once you've earned your badge, proudly share your success on LinkedIn or other platforms.
